

Dr. Hruz is Associate Professor of Pediatrics and Chief of Pediatric Endocrinology and Diabetes at Washington University in St. Louis. He received his bachelor's degree in chemistry from Marquette University in 1987. As a member of the Medical Scientist Training Program at the Medical College of Wisconsin, he received his Ph.D. Degree in Biochemistry in 1993 and M.D. Degree in 1994. Dr. Hruz completed Residency training in Pediatrics at the University of Washington in Seattle and a Pediatric Endocrinology fellowship at Washington University. He joined the Washington University faculty in 2000. Dr. Hruz is board certified in Pediatrics and Pediatric Endocrinology. He is a fellow of the American Academy of Pediatrics, and a member of the American College of Pediatricians, the American Diabetes Association, the Pediatric Endocrine Society, and the Society for Pediatric Research. He currently leads a nationally recognized team of clinicians who provide comprehensive consultative services for children with disorders related to endocrinology, diabetes and metabolism. As a member the University's Disorders of Sexual Development (DSD) Interdisciplinary Team, Dr. Hruz has contributed to ongoing national dialogue regarding emerging treatment approaches for children with gender dysphoria. He has authored over 50 peer-reviewed manuscripts, scientific reviews and book chapters.
