RESTORING HEALTHCARE IN A TECHNOCRATIC AGE
Building Parallel Structures to Deliver Compassionate Care

Catholic Medical Association
87th Annual Educational Conference
Dallas, Texas - September 20-22, 2018

Presented by Solidarity Healthshare
THE PATRON SAINTS OF OUR CONFERENCE ARE

Saints John Paul II and Mother Teresa

who exemplified a commitment to serving Christ in the suffering, confident in the truth of His teaching and love.

Mother Teresa and St. John Paul II, the man and the woman of the century, who together made and changed history. They were pilgrims of peace, individuals who were deeply in love with God and neighbor, supporters of the poor and the marginalized, promoters of human freedom and human dignity. Additionally, what St. John Paul II witnessed in Mother Teresa was what he called the mystery of woman and the great works of God in and through the woman.
Dear Colleagues,

Welcome to the 87th Annual Educational Conference of the National Catholic Medical Association. We welcome you to exciting Dallas, Texas.

This year’s conference, “Restoring Healthcare in a Technocratic Age: Building Parallel Structures to Deliver Compassionate Care,” will focus on providing for the health of the whole patient in the present circumstances.

The title of our conference implies that technocracy poses yet another challenge to providing good care to our patients.

Our conference committee has gathered a distinguished faculty, representing the fields of medicine, theology, law and journalism to address ways to overcome these challenges.

With hearts and minds lifted up in prayer, we will ask for the grace to see past our computer screens and into the face of Christ in our patients. We will strive together to love and serve, and explore some influences, technocratic and otherwise, that impede us. Above all, we will encourage each other in the pursuit of heroic virtue in communion with Christ and His Church.

Sincerely in Christ,

John A. Schirger, M.D.
Vice-President
2018 Conference Chair
Dear Brothers and Sisters in Christ,

It is with great joy that I welcome you to the Diocese of Dallas as you attend the Catholic Medical Association’s 87th Annual Educational Conference!

The conference theme of Restoring Healthcare in a Technocratic Age: Building Parallel Structures to Deliver Compassionate Care is more important today than perhaps any other time in history. I am grateful that you are gathering to discuss and learn how you can continue to stay true to your faith and your vocation as Catholic medical professionals.

As our Holy Father Pope Francis has noted, “Health is one of the most valuable gifts desired by all... The fathers of the Church used to refer to Christ and His work of salvation with the title ‘Christus medicus.’ He is the Good Shepherd who cares for the wounded sheep and comforts the sick. He is the Good Samaritan who does not pass by the injured person at the roadside, but rather, moved by compassion, cares and attends to him.”

I am grateful that you use your expertise to ensure that the people you treat and their families receive the love of God through your care. I pray this conference will help you continue the Christian medical tradition inspired by the parable of the Good Samaritan identifying with the love of the Son of God, who healed those in need.

May Jesus Christ, the Divine Physician, abundantly bless you!

Faithfully in Christ,

Most Reverend Edward J. Burns
Bishop of Dallas
Dear Members of the Catholic Medical Association,

Our Holy Father, Pope Francis, has said that what "Before all else, the Gospel invites us to respond to the God of love who saves us, to see God in others and to go forth from ourselves to seek the good of others. All of the virtues are at the service of this response of love."

This week you gather to reflect on the joy of encountering Christ and bringing his presence to others by a life of virtue. It is my privilege to welcome you to Dallas, Texas and to the 87th Educational Conference of the Catholic Medical Association: Restoring Healthcare in a Technocratic Age, Building Parallel Structures to Deliver Compassionate Care.

The term “technocracy” has been used to describe a state of affairs wherein technologies become ends in themselves rather than serving the proper end of the human person. We are all called, as physicians and healthcare providers, to practice medicine in accord with faith, reason, and the teachings of Christ promulgated by Holy Mother Church.

Jesus Christ invites all of us to be missionary disciples. Doctors, nurses, and health care professionals are called to evangelize—to share the faith and uphold the dignity of life—with their families, patients, and fellow health care workers. As Saint Catherine of Siena stated, "If you are who you should be, you will set the world on fire!"

I pray that this conference will encourage you, strengthen you, and equip you to be more virtuous missionary disciples. I pray that it will help you to form alliances and friendships, unity in mission and purpose. And I pray that this conference, and the Catholic Medical Association, will help you to become holy. Please be assured of my prayers for each one of you and my support. Let us work together to bring the joy of the Gospel to all men and women. I remain

Sincerely yours in Christ,

The Most Rev. James D. Conley
Bishop of Lincoln

Chancery · 3400 Sheridan Boulevard · Lincoln, Nebraska 68506-6125
Telephone: (402) 488-0921 · Fax: (402) 488-3569 · www.lincolndiocese.org
Greetings:

As Governor of Texas, it is my pleasure to welcome you to Dallas for the Catholic Medical Association’s 87th Annual Educational Conference.

Communities of faith make a difference across the Lone Star State, sharing their beliefs and bettering their communities through service and education. Through fellowship and conviction, the Catholic Medical Association highlights the best of Texas. Your faith is what makes our state stronger.

We all owe an overwhelming debt of gratitude to the health care professionals who provide us with invaluable services in times of need. Whether working with hospital staff, patients or families, health care professionals throughout the Lone Star State demonstrate the Texas spirit of caring and compassion. Our state’s hospitals and health care delivery systems are indebted to all of you who volunteer your time to help fellow citizens in times of need.

As you gather, I commend your association for its excellent work throughout the years. I hope you will enjoy this opportunity to network with your fellow volunteers and expand your knowledge about the health care industry.

To those from out of town, I hope you will enjoy all that Dallas has to offer. Renowned for its Texas hospitality, historical landmarks, arts district, museums, and exciting community events, dining, and entertainment, there is something here for everyone.

First Lady Cecilia Abbott joins me in wishing you a successful convention.

Sincerely,

Greg Abbott
Governor
PRAYER OF THE CATHOLIC PHYSICIAN

LORD JESUS,

Divine Physician, who in your earthly life showed special concern for those who suffer and entrusted to your disciples the ministry of healing, make us ever ready to alleviate the trials of our brethren. Make each one of us, aware of the great mission that is entrusted to him, strive always to be, in the performance of daily service, an instrument of your merciful love. Enlighten our minds, guide our hands, make our hearts diligent and compassionate. Ensure that in every patient we know how to discern the features of your divine Face.

YOU WHO ARE THE WAY, provide us with the gift of knowing how to imitate You every day as medical doctors not only of the body but of the whole person, helping those who are sick to tread with trust their own earthly path until the moment of their encounter with You.

YOU WHO ARE THE TRUTH, provide us with the gift of wisdom and science in order to penetrate the mystery of man and his transcendent destiny as we draw near to him in order to discover the causes of his malady and find suitable remedies for it.

YOU WHO ARE THE LIFE, provide us with the gift of preaching and bearing witness to the ‘Gospel of life’ in our profession, committing ourselves to defending it always, from conception to its natural end, and to respect the dignity of every human being, and especially the dignity of the weakest and the most in need.

Make us O Lord, Good Samaritans, ready to welcome, treat, and console those we encounter in our work. Following the example of the holy medical doctors who have preceded us, help us to offer our generous contribution to the constant renewal of health care structures.

Bless our studies and our profession; enlighten our research and our teaching. Lastly, grant to us, having constantly loved and served You in our suffering brethren, that at the end of our earthly pilgrimage we may contemplate your glorious countenance and experience the joy of the encounter with You in your Kingdom of joy and everlasting peace. Amen

SAINT JOHN PAUL II
THE VATICAN, JUNE 29, 2000
Dearest Lord, may I see you today and every day in the person of your sick, and, while caring for them, minister unto you.

O beloved sick, how doubly dear you are to me, when you personify Christ; and what a privilege it is to be allowed to care for you.

Sweetest Lord, make me appreciative of the dignity of my high vocation, and its many responsibilities.

Never permit me to disgrace it by giving way to coldness, unkindness or impatience.

And O God, while you are Jesus, my patient, deign also to be patient with me, bearing with my faults, looking only to my intention, which is to love and serve you in the person of each of your sick.

Lord, increase my faith, bless my efforts and work, now and forevermore. Amen

BLESSED MOTHER TERESA OF CALCUTTA
Optional Opening Prayers:

You expired, Jesus, but the source of life gushed forth for souls, and the ocean of mercy opened up for the whole world. O Fount of Life, unfathomable Divine Mercy, envelop the whole world and empty Yourself out upon us.

(Repeat 3 times) O Blood and Water, which gushed forth from the Heart of Jesus as a fountain of Mercy for us, I trust in You!

Our Father, Hail Mary and the Apostle’s Creed

For each of the five decades (On each “Our Father” bead of the rosary, pray)

Eternal Father, I offer you the Body and Blood, Soul and Divinity of Your Dearly Beloved Son, Our Lord, Jesus Christ, in atonement for our sins and those of the whole world.

(On each of the 10 “Hail Mary” beads, pray)
For the sake of His sorrowful Passion, have mercy on us and on the whole world.

Concluding Prayer (Repeat 3 times)
Holy God, Holy Mighty One, Holy Immortal One, have mercy on us and on the whole world.

Optional Closing Prayer
Eternal God, in whom mercy is endless and the treasury of compassion inexhaustible, look kindly upon us and increase Your mercy in us, that in difficult moments we might not despair nor become despondent, but with great confidence submit ourselves to Your holy will, which is Love and Mercy itself.
THE 1995 RESTATEMENT OF
THE OATH OF HIPPOCRATES

I SWEAR in the presence of the Almighty and before my family, my teachers and my peers that according to my ability and judgment I will keep this oath and stipulation:

TO RECKON all who have taught me this art equally dear to me as my parents and in the same spirit and dedication to impart a knowledge of the art of medicine to others. I will continue with diligence to keep abreast of advances in medicine. I will treat without exception all who seek my ministrations, so long as the treatment of others is not compromised thereby, and I will seek the counsel of particularly skilled physicians where indicated for the benefit of my patient.

I WILL FOLLOW that method of treatment which according to my ability and judgment, I consider for the benefit of my patient and abstain from whatever is harmful or mischievous. I will neither prescribe nor administer a lethal dose of medicine to any patient even if asked nor counsel any such thing nor perform act or omission with direct intent deliberately to end a human life. I will maintain the utmost respect for every human life from fertilization to natural death and reject abortion that deliberately takes a unique human life.

WITH PURITY, HOLINESS, AND BENEFICENCE I will pass my life and practice my art. Except for the prudent correction of imminent danger, I will neither treat any patient nor carry out any research on any human being without the valid informed consent of the subject or the appropriate legal protector thereof, understanding that research must have as its purpose the furtherance of the health of that individual. Into whatever patient setting I enter, I will go for the benefit of the sick and will abstain from every voluntary act of mischief or corruption and also from the seduction of any patient.

WHATEVER IN CONNECTION with my professional practice or not in connection with it I may see or hear in the lives of my patients which ought not be spoken abroad I will not divulge, reckoning that all such should be kept secret.

WHILE I CONTINUE to keep this oath unviolated may it be granted to me to enjoy life and the practice of the art and science of medicine with the blessing of the Almighty and respected by my peers and society, but should I trespass and violate this Oath, may the reverse be my lot.

AS INTRODUCED BY THE VALUE OF LIFE COMMITTEE, INC., JUNE, 1995.
© 1995 THE NATIONAL CATHOLIC BIOETHICS CENTER
CONFERENCE OVERVIEW

We are all called, as physicians and healthcare providers, to practice medicine in accord with reason, evidence and the teachings of Christ promulgated by His Holy Church. At our best we try to see the face of Christ in the patients we care for, often in difficult circumstances. Cultural influences can make this difficult at times; John Paul II’s “Culture of Death,” Benedict XVI’s “Dictatorship of Relativism,” and Francis’ “Throwaway Culture” brilliantly capture many of the challenges we face in our vocation of caring for the sick and suffering.

The term “technocracy” has been used to describe a state of affairs wherein technologies become ends in themselves rather then serving the proper end of the human person. Genetic, pharmacologic, mechanical and managerial technologies are all necessary in medicine and generally serve the needs of the patient. There is a danger however that these technologies become ends in themselves, or, worse, as has happened historically, serve ends not related to good patient care.

Our conference seeks to look at the ways in which we healthcare providers can best serve our patients in the face of technocratic challenges. We hope to provide encouragement and strategies to those serving patients to always keep the good of the patient as the top priority. Some practitioners have focused on developing parallel structures, structures that seek to support and integrate with current structures in providing care for our patients. Thus there will be presentations on new practice delivery models as well as novel reimbursement models. There will also be presentations on providing good, compassionate care within currently existing practice models. Our focus will be to always make the good of the patient our priority.

With hearts and minds lifted up in prayer, we will ask for the grace to see past our computer screens, past our administrative and clerical burdens and into the face of Christ in each of our patients. We will strive together to love and serve, and explore influences that impede us, and how to best overcome these. Above all, we will encourage each other in the pursuit of virtue, in communion with Christ and His Church, in serving all of our patients.
EDUCATIONAL OBJECTIVE

After attending this conference, a participant should be able to:

1. Understand some of the solutions offered by GK Chesterton and the Benedict Option to apply them to the practice of medicine and the need for moral communities in regards to articulating the truth of the human person.

2. Understand the four principles of Catholic social teaching. Identify them in the founding principles of the United States and articulate these principles in as contemporary options for health care reform.

3. Understand the epistemology and pharmacology of medical abortion. Discuss data on mifepristone reversal and the three pillars of support for the use of progesterone to block its effect. Articulate how medical professionals can make abortion pill reversal part of their medical practice.

4. Better understand modern technocracy vs. the effects of the technological culture on medical practice. Discuss how Catholic Social Teaching pertains to patient centered healthcare and offer a more holistic approach to patient centered medical care incorporating the teaching of the Church. Brainstorm a new vision for reclaiming authentic Catholic healthcare.

5. Educate patients about opioids in advanced illness and how they are used differently than chronic non-serious illness pain. Know the basic opioid conversion, titration, rotation, and the safest ways to prescribe and use opioids.

6. Determine major considerations in selecting an employed job vs. private practice and vice versa. Know the unique challenges of starting a faith-based private practice, maintaining professionalism and how to flourish in your practice of medicine.

7. Understand why physician assisted suicide is antithetical to the principles of the Hippocratic Oath and describe the emergence of Palliative care and how it is the antidote the cry of physician assisted suicide by Intensive Caring of the whole person. Describe how to enact advanced care planning for Catholic patients and effectively communicate difficult news to patients and family.

CME Information

The Christian Medical & Dental Associations designates this educational activity for a maximum of 22.25 *AMA PRA Category 1 Credit(s)™*. 12.00 Credits for the Conference. 7.75 Credits for the End of Life Forum and 2.25 Credits for the NFP Forum. The End of Life Forum and NFP Forum are scheduled for Wednesday, September 19th and an additional registration fee is required. You cannot attend both events.

Accreditation

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Christian Medical & Dental Associations (CMDA) and Catholic Medical Association. Christian Medical & Dental Associations is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Physician Credit

The Christian Medical & Dental Associations designates this educational activity for a maximum of 22.25 *AMA PRA Category 1 Credit(s)™*. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Physician Assistant

AAPA accepts certificates of participation for educational activities certified for *AMA PRA Category 1 Credit(s)™* by an organization accredited by the ACCME or a recognized state medical society. Physician assistants may receive up to 22.25 credits for completing this activity.

Nurse Practitioner

The American Academy of Nurse Practitioners Certification Program (AANPCP) accepts *AMA PRA Category 1 Credit™* from organizations accredited by the ACCME. Individuals are responsible for checking with the AANPCP for further guidelines. Nurse practitioners may receive up to 22.25 credits for completing this activity.

Nursing

This educational activity has been approved by the American Association of Occupational Health Nurses (AAOHN), an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation. 24.25 contact hours approved.

You can purchase single talks, 12 packs and a Best Value full set!

Video and slide recordings of talks in the ballroom

Audio and slide recordings of talks in the breakout rooms
CMA SOCIAL NETWORKING

Be an Active Participant in the CMA Conference

Connecting with CMA members, and all those involved in the work of the CMA, is very important to us. Be sure to share your pictures and thoughts with fellow conference attendees during the CMA 87th Annual Educational Conference, by using the hashtag #CMAC on all your posts and tweets! Your pictures may have a chance to be featured in upcoming issues of our CMA magazine, newsletter, or website.

Q&A SESSIONS

Submit your questions for each morning session.

Faculty speakers will answer questions during morning sessions during the conference. Your questions are welcome and need to be submitted in writing prior to the Q&A.

SUBMIT YOUR QUESTIONS
Email questions to AEC@cathmed.org at any time BEFORE the appropriate Q&A session begins.

ALL QUESTIONS should include the faculty speaker’s name to whom it is addressed. Program assistants will print and collate submitted questions to which the speakers will respond. There will not be opportunities to ask impromptu questions during sessions.

DONATE TO STUDENT & RESIDENT EDUCATION

Give Students and Residents Access to Future Conferences!

Many of the medical students and residents at the Conference this year are here only because of scholarships made possible by generous CMA members and grants.

DONATE TO THE CMA ANNUAL APPEAL
If you would like to continue to give medical students and residents access to future CMA offerings, please consider donating to Medical Student and Resident Education online at www.cathmed.org/support
Fill out the Annual Appeal form and enter your donation amount under Medical Student and Resident Education. You can also use forms that will be distributed at this conference and return them to the registration desk.

87th Annual Educational Conference

ADVERTISERS
The Catholic Solution to the Healthcare Problem

Solidarity HealthShare is a Healthcare Sharing Ministry, which provides an ethical way to fund health care costs while protecting and practicing our Catholic beliefs. Solidarity’s members pay a monthly contribution and members submit their medical needs as they arise.

Our members choose their own providers and Solidarity is there to support them in taking charge over their healthcare. Members submit their member card to their providers, who in turn will forward their bill to Solidarity.

Solidarity’s software shares the medical bill among members through an online account called a Share Box to pay the provider. It is REALLY neighbor helping neighbor.

The Member Guidelines determine what medical expenses are shared among the members of Solidarity Healthshare, by following Catholic moral teachings.

Medical expenses that are morally objectionable or violate one’s well-formed conscience are not shared: such as abortion, contraceptives, euthanasia, and gender reassignments.

The cost is reasonable because Solidarity is very aggressive about paying the lowest cash price for health care. We access deep discounts in the health care market.

Healthcare sharing is a great example of subsidiarity and solidarity in action.

First, members agree to what is ethical and moral, not a federal bureaucracy or insurance company.

Second, healthcare sharing allows members to bear the burdens of medical costs together.

Solidarity HealthShare, taking its name very appropriately from Catholic social teaching, simply facilitates the sharing.
In imitation of Christ, Ascension provides compassionate, personalized care for all, especially for those who are most vulnerable. As the world’s largest Catholic health system, encompassing physicians, medical centers, and innovators, Ascension operates 2,600 sites of care — including 153 hospitals and more than 50 senior living facilities — in 22 states and the District of Columbia.

ascension.org
Congratulations

From the Past Presidents of the Catholic Medical Association
to

JOHN A. SCHIRGER, M.D.
Conference Chair

For an Inspiring Annual Educational Conference
Our Prayers and Best Wishes are with You In Gratitude for Your Service to the CMA
The Alliance of Catholic Health Care Welcomes the Catholic Medical Association to Dallas, Texas!

Since the first disciples healed a paralyzed man “in the name of Jesus Christ,” (Acts 3:1-10), Christians have followed the model and Call of Jesus to care for the sick, the poor, and the vulnerable. Throughout history, the Call has remained the same, while the methods and means of care have adjusted in response to the needs and signs of the times. In the United States, the Call has taken the form of a large institutional ministry presence.

Catholic health care providers have been witnessing their commitment to Jesus’ Call by serving California communities for over 150 years. Today, two Catholic health care systems, and two independent hospitals operate 50 Catholic and community-based hospitals throughout California. They are committed to providing high quality, low cost care to their patients and improving the overall health and well-being of their communities. Catholic health care providers comprise over 14 percent of California’s hospitals.

The Alliance of Catholic Health Care strengthens the Catholic health care ministry in California by providing a statewide forum through which ministry leaders collaborate on advocacy, ministry leadership formation, the advancement of religious freedom, Church relations and other issues that enhance the common good of the patients and communities they serve.

Smart Investing and Catholic Values

Contact us at 1-866-AVE-MARIA (1-866-283-6274) or visit avemariafunds.com

Past performance does not guarantee future results. An investor should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. The prospectus, which can be obtained for free by calling 1-866-AVE-MARIA or online at avemariafunds.com, contains this and other information about the Funds, which should be read and considered carefully before investing. The Funds’ ratings have been positively impacted by fee waivers.

The Adviser invests only in securities that meet the Funds’ investment and religious requirements. The returns may be lower or higher than those of individual investments. The methodology of asset allocation may not result in the performance that is expected. All mutual funds are subject to market risk, including possible loss of principal. The Funds invest in small- and mid-capitalization companies. All mutual funds may be subject to greater volatility than an investment in larger companies. AVEX invests primarily in dividend-paying companies and it is possible that these companies may eliminate or reduce their dividend payments. AVFX invests primarily in fixed-income securities and so a result the Fund is subject to the following risks: interest rate risk, credit risk, credit rating risk and liquidity risk.

The Morningstar Rating™ for funds, or “star rating,” is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, open-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a combination of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are 100% three-year rating; 20% five-year rating; 40% five-year rating; 20% five-year rating; 20% three-year rating; 20% three-year rating for 10 or more months of total returns, and 50% 10-year rating; 20% five-year rating; 20% three-year rating; 20% three-year rating for 10 or more months of total returns. The 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. With respect to other time periods, the Funds received the following Morningstar Ratings: AVFX 3 stars among 1,500 funds; 5 year 2 stars among 1,000 funds; and 10 year 4 stars among 1,000 funds. AVFX 5 stars among 1,000 funds and 10 year 4 stars among 300 funds.

Restoring Healthcare in a Technocratic Age:
Building Parallel Structures to Deliver Compassionate Care

CATHOLIC MEDICAL ASSOCIATION
Upholding the Principles of the Catholic Faith in the Science and Practice of Medicine
Catholic Doctors Needed
Physicians, Dentists, Physician Assistants and Nurse Practitioners

Patients around the world are waiting for a doctor. Millions of people suffer with preventable diseases, lower quality of life, and shortened life spans.

You have the education, the expertise, and the experience to make a difference.

Join us for a Weekend Retreat Seminar and earn CME credits.
September 28-30, 2018
Loyola Stritch Medical School

Since 1959, Mission Doctors Association has trained, sent and supported Catholic doctors and their families to serve people of all faiths in some of the most under-served areas of the world.

Visit www.MissionDoctors.org/Loyola to learn more and sign up.

Can’t Go Yourself?
You can make it possible for a Catholic doctor to serve at a mission hospital or clinic. It only takes $3.00 to make it possible for a Mission Doctor to care for one patient in Africa or Latin America. This mission of healing provides direct patient care and training for local professionals striving toward the goal of sustainable health care.

The Clergy, Religious and Lay Faithful of the Archdiocese of Newark are Grateful to the Men and Women of the Catholic Medical Association for Your Commitment to Catholic Teaching and the Healing Arts.

May God Bless You Always.

Cardinal Joseph W. Tobin, C.Ss.R.
Archbishop of Newark

The mission of the Pontifical John Paul II Institute is rooted in the abiding conviction that Jesus Christ reveals love to be the meaning of God (1 Jn 4:8), of the human person, and through the person, of the whole of creation. The Institute is thus devoted to a rigorous study of the Trinitarian mystery of God’s love given to us in Jesus Christ as it reveals the meaning of man and his world (Gaudium et Spes, 22), and to a perception of the human person in all its dimensions: philosophical, theological, anthropological, and scientific.

The only cure for loneliness, despair, and hopelessness is the love of Jesus. Join us in sharing God's love with those in challenging circumstances.

Seeing the great spiritual poverty that St. Teresa of Calcutta spoke of so frequently, we began The Word Among Us Partners ministry in 1989 to send free copies of The Word Among Us magazine to people in need. The magazine fosters ongoing conversion, leading to a deeper relationship with Jesus Christ, a growing life of prayer and Scripture reading, and more active participation in the sacraments.

We started with only about 800 copies sent to inmates, but since then, our ministry has extended to:

**PRO-LIFE**
5,000 women and men in crisis pregnancies, plus 100,000 recipients of “After Abortion,” a resource to help women and men find mercy following abortion.

**PRISON**
English and Spanish-speaking prisoners.

**MILITARY**
30,000 men and women serving in the Armed Forces.

**COLLEGE**
13,000 college students who receive spiritual hope and encouragement.

**POVERTY**
2,000 families in high poverty areas, beginning this Advent, 2018

The world today can be very confusing, challenging especially for our young adults. Many are understandably disconcerted and directionless. We at the CMA are keenly aware and proactively working to change the culture by helping our medical students and residents return to a God centered place of peace and well-being.

Positively influencing young CMA physicians is how we will affect real change in the medical field ensuring a more promising future for our nation’s healthcare. Our Medical Student and Resident Education Boot Camp and Annual Educational Conference have long been beacons of learning for our young members to learn that as Catholic medical students they will be engaged in fighting a battle against a culture of secularism, relativism, and scientism that pervades medical education in the United States.

Please help us continue ensuring these bright and worthy future physicians practice medicine more fully by understanding the Catholic faith and moral tradition to thrive at their calling to be faithful Catholic physicians.

Support our Medical Students and Residents!
