# Welcome

## The theme of the 2025 Annual Education Conference is, “Tradition, Ever Ancient and Ever New.”

The goal is to recapture some of the ways medicine had been practiced in earlier times with its focus on the individual and a greater reliance on the Father, Son and Holy Spirit. Presentations will examine different models for practicing medicine, educating medical students and caring for dying patients. Human flourishing, and the timely topic of artificial intelligence (AI) and medicine will also be covered. The conference culminates with the Banquet keynote address delivered by Sister Deirdre Byrne, M.D., POSC, retired US Army Colonel and General Surgeon.

Over the past century, medicine has evolved technologically with the development of precise diagnostic testing, innovative surgical techniques, lifesaving medications and efficient ways of recording, storing and sharing information.

These advancements have provided tremendous benefits to humanity by decreasing mortality and extending life expectancy as well as improving our quality of life and our ability to live with chronic medical problems.

Unfortunately, as we have progressed, we have also regressed in many ways. We have forgotten who we are and why we are here. In many of our best medical institutions, God has been either suppressed or outright expelled. Contraception, IVF, abortion, euthanasia and modern mainstream approaches to gender dysphoria are the most blatant examples of what happens when God is removed from the practice of medicine. Sadly, health care delivery today in many ways resembles a factory assembly line or a conveyor belt. Individualized patient care has been sacrificed for efficiency and cost minimization.

The 2025 conference is entrusted under the patronage of St. Joseph, St. Teresa of Avila, Pope St. Pius X, St. Anthony of Padua, St. Pio of Pietrelcina and St. John Marie Vianney.
